

Curriculum Vitae

About Me

Hello! I'm Dimas Aditia Saputra, a Computer Science student with a deep passion for technology and software development. My journey began with a simple curiosity about how computers work, and it has evolved into a dedicated pursuit of creating innovative, efficient, and user-friendly digital solutions.

I thrive on challenges and am constantly learning new programming languages and frameworks. My goal is to leverage my skills to build meaningful applications that can make a positive impact.

Key Skills

- JavaScript (Vue, Node.js)
- Express JS
- TypeScript
- Java
- HTML & CSS
- SQL & NoSQL (MongoDB)
- Git & Docker
